PROJECT EXPERIENCE

Online Fruits Shop Management System

June 2024 - November 2024

- Developed a mini project for an online fruits shop as part of the third semester of my MCA
- Implemented core features including product display, shopping cart functionality, and order management
- Integrated XAMPP server and MySQL database for storing and managing product information and customer orders
- Designed and integrated basic CRUD (Create, Read, Update, Delete) operations to manage products in the shop
- Used Java Swing components like buttons, text fields, and tables to enhance the user experience
- Gained hands-on experience in Java programming and database connectivity
